Free for every student · Pre-K to 12

Bose Academy for Schools

Free adaptive learning with a tutor that teaches thinking. Built by an 11-year-old.

bose.academy

WHY WE BUILT IT

Strong practice tools often cost money. Free ones often skip the thinking.

Bose Academy brings lessons, deep practice and a patient tutor together, free for every learner, with no ads.

HOW IT WORKS

One loop, from first idea to lasting skill

Learn

A short, plain-language lesson before any practice.

Practice

Problems adjust after every answer, with a tutor beside each one.

Check

A spaced check days later confirms it stuck.

Advance

The knowledge map lights up the next skill.

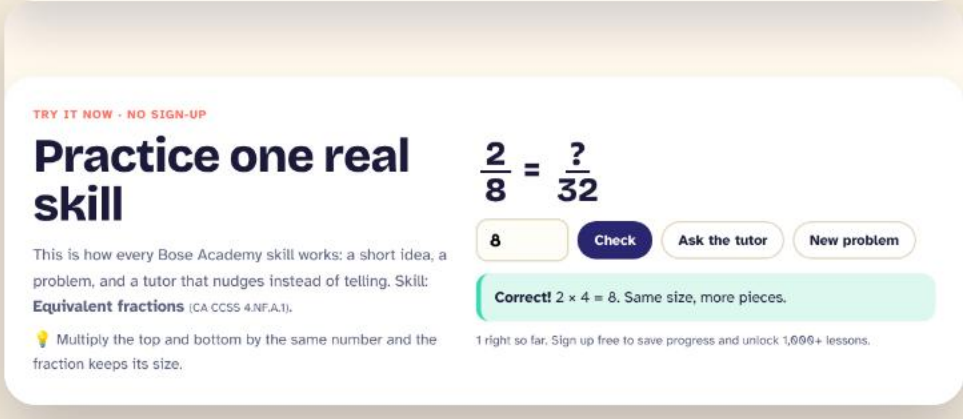
Progress only goes up: one wrong answer never erases what a student has learned.

THE TUTOR, LUMI

A tutor that asks, not tells

Hint 1	A gentle nudge: “How many times bigger is 8 than 4?”
Hint 2	A concept reminder: do the same to the top and the bottom.
Hint 3	Guided help: the first step, worked together.

Only after that does Lumi show the worked steps. Students do the thinking, so it stays with them.



WHAT'S INSIDE

Every grade, every core subject

K–12
plus Pre-K, in one place

1,073
lessons

20,895
practice questions

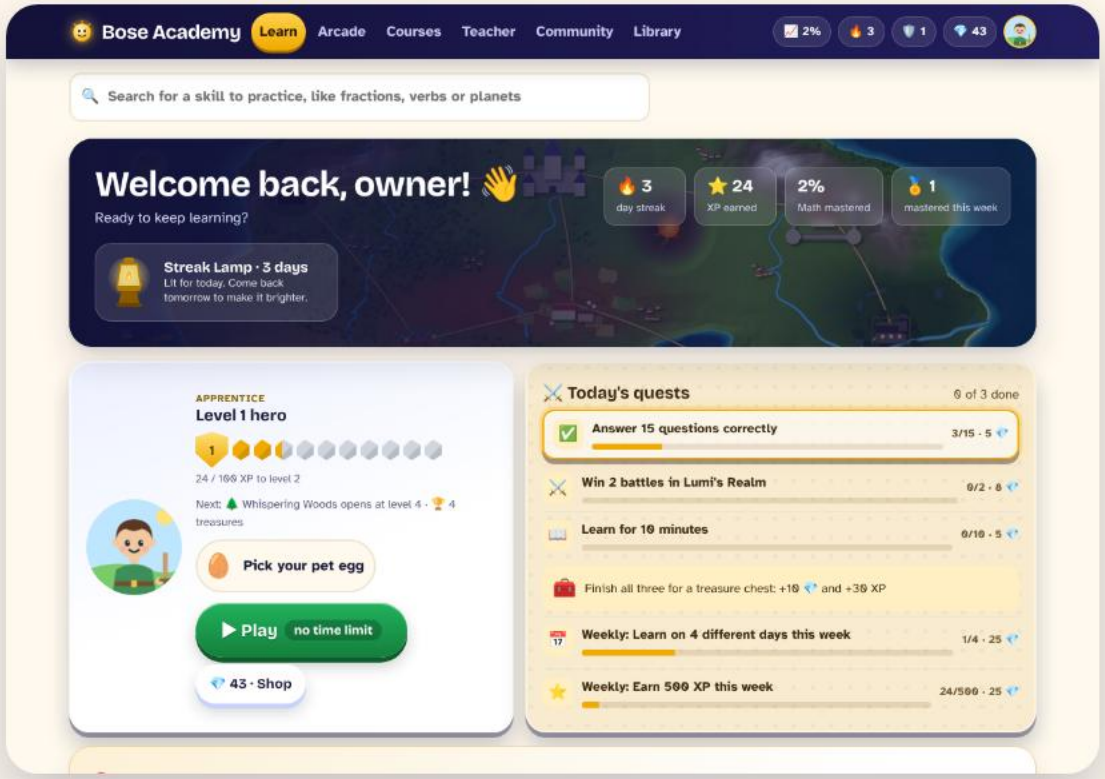
$0
for students and schools

Math · Reading and writing · Science · Social studies · Computer science · Financial literacy · Spanish

THE STUDENT VIEW

Built to keep students coming back

- 💡 A Streak Lamp that glows brighter each day they practice
- ⭐ Up to 3 mastery stars on every skill of the map
- 📈 A daily mission and a Lumi Challenge with a Thinking Score
- 🛡️ Healthy play-time limits that learning unlocks



FOR TEACHERS

Classroom tools, free

Classes in one step

Type student names and logins are made for you. No student email needed.

Assign and see

Assign skills, units, tests and classwork, then see each student's progress.

Class Quest

A shared goal, like 200 mastery stars this week, with no individual ranking.

Printable worksheets, tests and certificates anyone can verify with a link.

THE ARCADE

Every right answer powers a game

Learning earns play time on an island of 10 games where every move is a question: build towers, race karts, raise pets and solve mysteries.

Play time has daily limits. Classroom mode gives teachers control of the games during class.

STANDARDS

Aligned to the California standards

112

math skills tagged to the California Common Core math standards

100%

of math skills in grades 3–6 tagged, shown on every skill page

Original

questions and lessons, free to print for classroom use

Example: Equivalent fractions · CA CCSS 4.NF.A.1. Unit guides list each grade’s priority standards.

PRIVACY AND SAFETY

Student data stays safe

🔒 Follows COPPA and California’s SOPIPA, and supports schools’ FERPA duties

✅ Student data is never sold or used for advertising. No ads, ever.

👥 Teacher-made logins need no student email

🔑 Parents can see, download or delete their child’s data

💬 The Community is for ages 13 and up, checked and moderated

📖 Full privacy policy at bose.academy/privacy.html

GETTING STARTED

Start tomorrow in three steps

1

Sign up as a teacher

Free at bose.academy, about a minute.

2

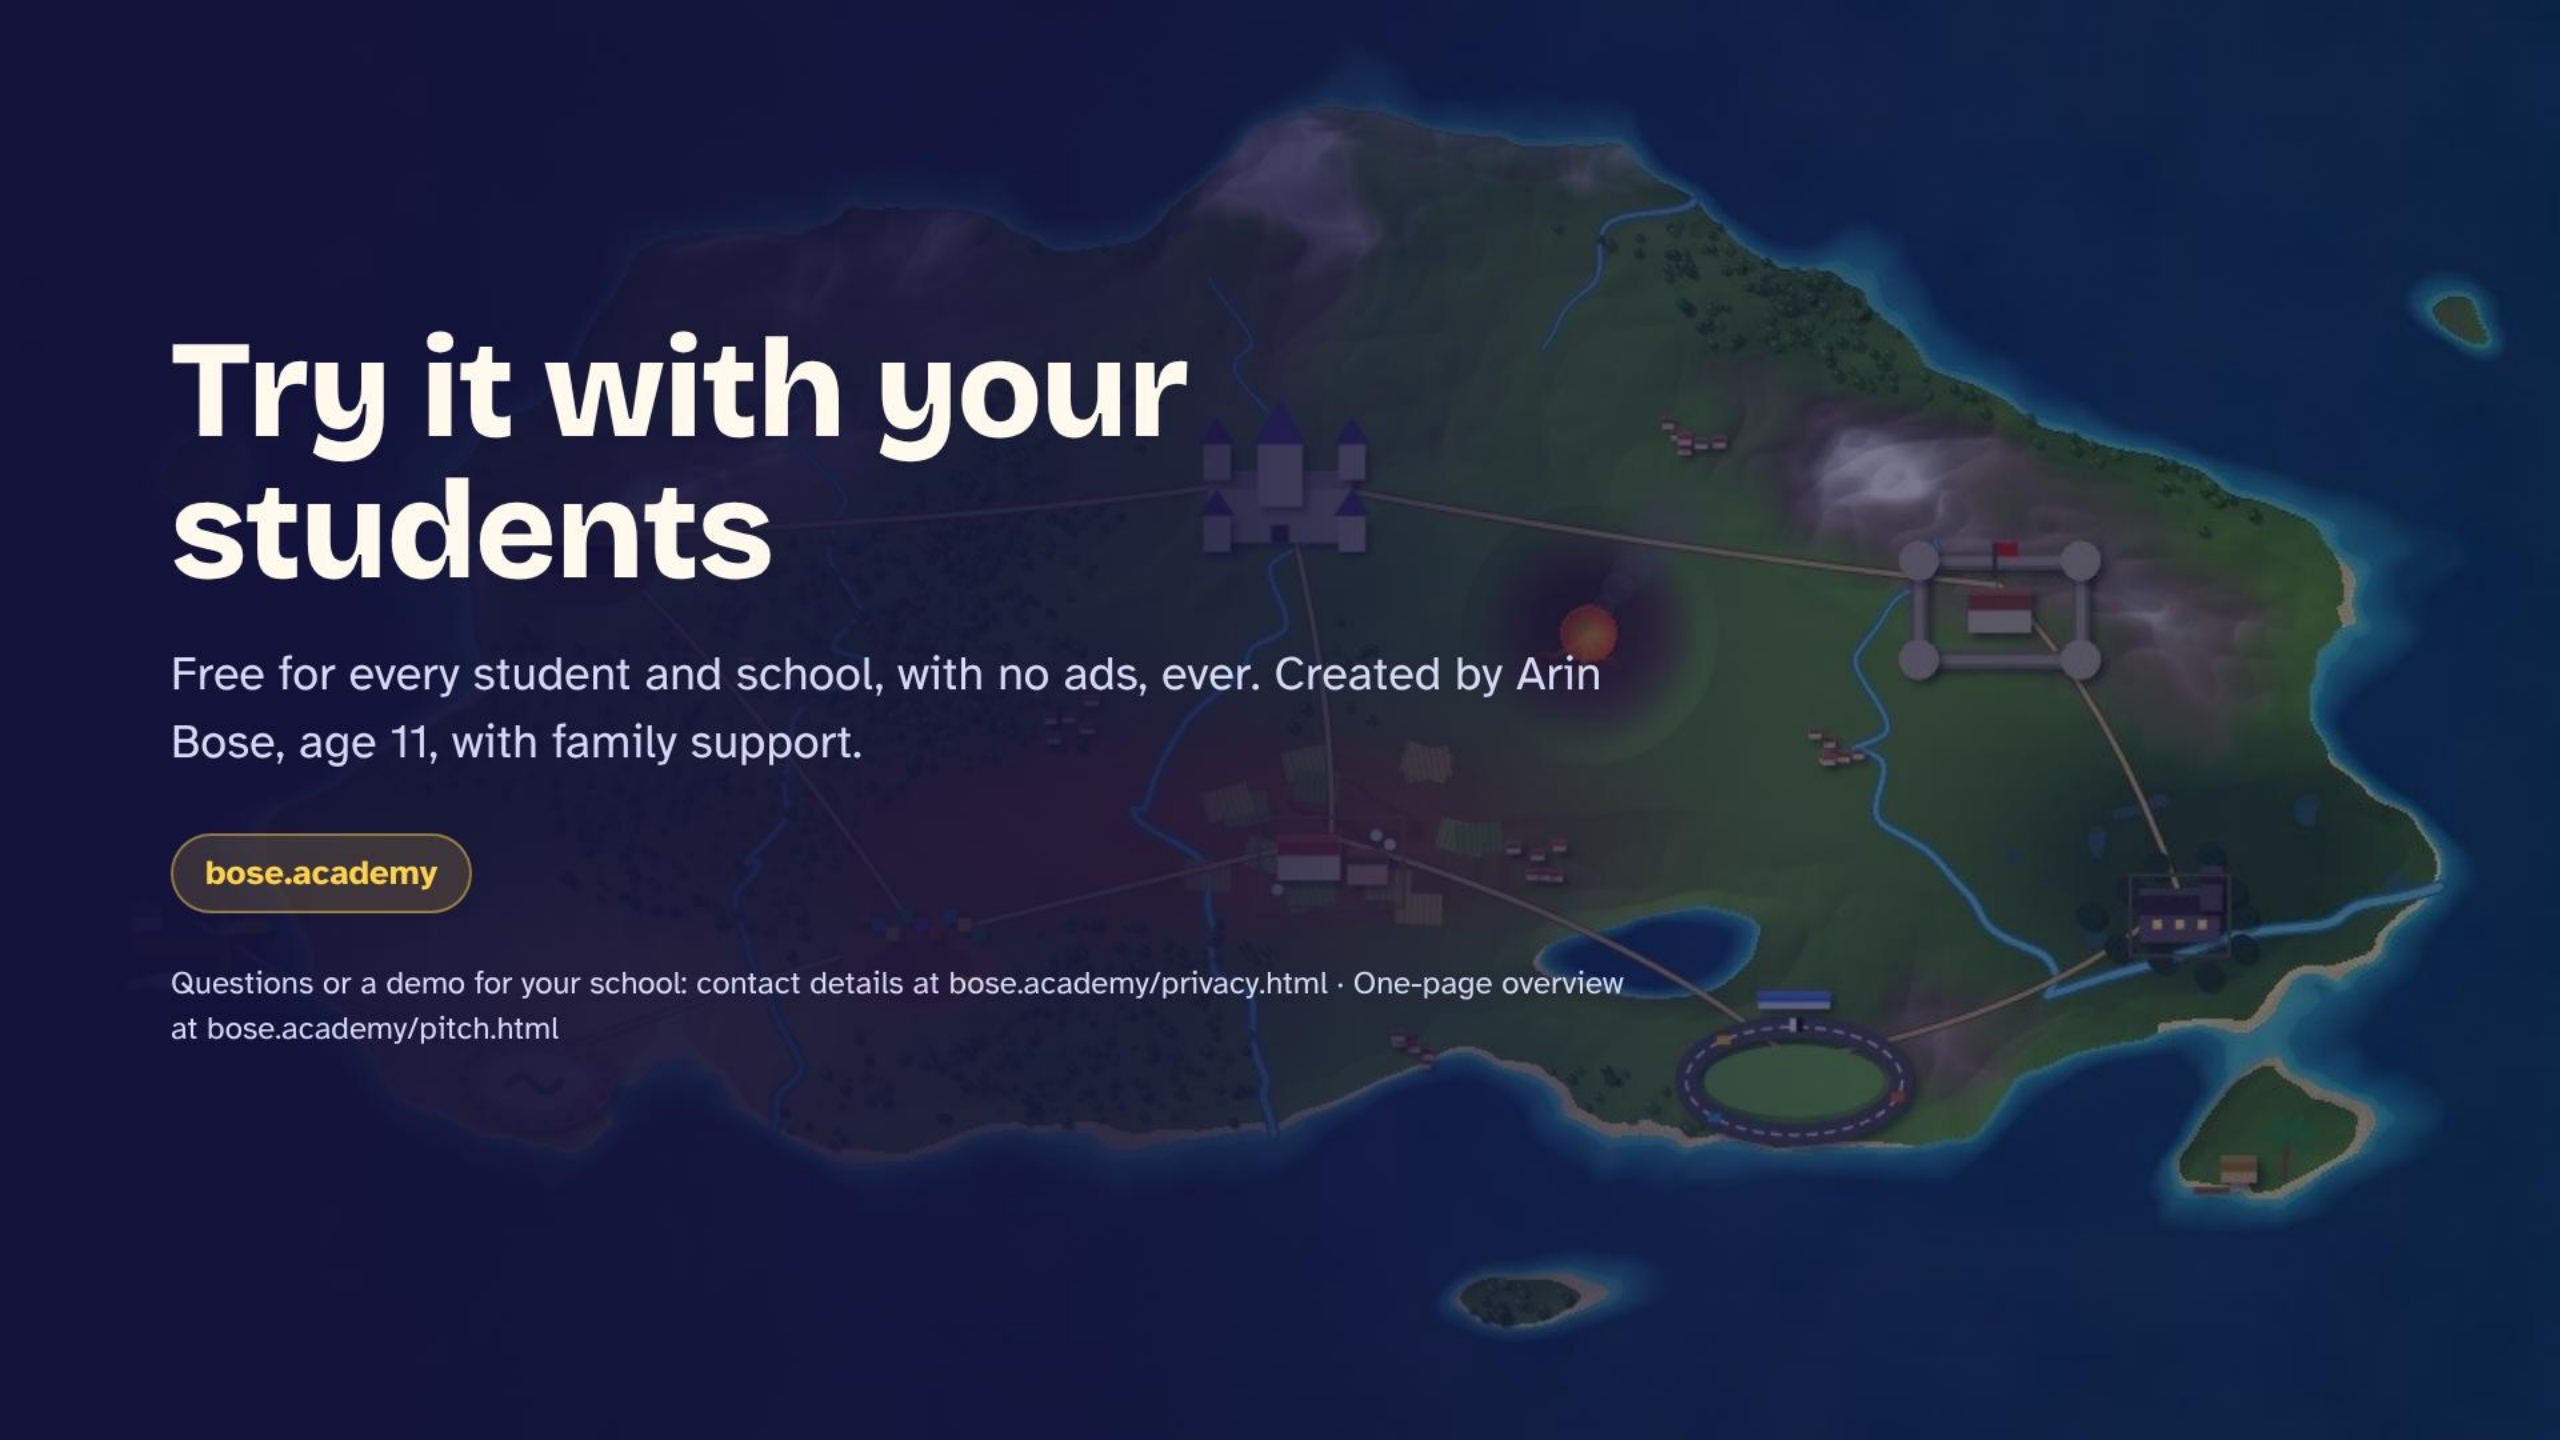
Create a class

Type student names. Logins are made for you.

3

Assign a skill

Watch progress come in, student by student.



Try it with your students

Free for every student and school, with no ads, ever. Created by Arin Bose, age 11, with family support.
